## Professional Summary

Graduated in May of 2024 from University of Anchorage Alaska with a B.S. in Natural Sciences and minor in Psychology, and a concentration in Pre-Health professions, I am a detail-oriented professional with a diverse background in medical device research, regulatory compliance, and quality assurance. My past career experience in Preclinical Research has equipped me with the skills to monitor health, maintain well-documented records, and comply with regulatory standards. I am eager to apply my strong work ethic, commitment to safety, and passion for patient care to make a difference in our world.

## Work History

### W. L. Gore & Associates, Flagstaff, AZ —

#### *Pre Clinical Area Leader*

December 2019 – May 2021

- Monitored health status and administered care to laboratory animals, ensuring compliance with USDA, FDA, IACUC, and AAALAC regulations.
- Led and coordinated a team of technicians and support staff, producing schedules to ensure comprehensive coverage.
- Developed and sustained training programs in collaboration with faculty leadership and training coordinators, significantly improving operational efficiency.

### W. L. Gore & Associates — *Preclinical Research Technician*

December 2017 – December 2019

- Trained new technicians, ensuring high standards of care and compliance with regulatory requirements.
- Assisted in the completion of preclinical studies, maintaining detailed and compliant records of all procedures and outcomes.
- Monitored health status and administered care to laboratory animals, ensuring compliance with USDA, FDA, IACUC, and AAALAC regulations.
